WEEKLY ACTIVITIES AND STATUS REPORT FOR THE DD/ICS--28 AUGUST 1985Mobile Missile Panel:

25X1

- The Mobile Missile Study has been revised slightly to take into account the formal CIA reservation, which is now an appendix. Additionally, reference to any follow-on effort regarding arms control has been removed. The study is now being reviewed by VC/CIPC, and if all goes well he should complete his review by the end of the week.
- At the last Mobile Missile Panel meeting on 22 August, a draft response to position was prepared, and CIA's reservations were reviewed. The panel will take a break for the next few weeks, as Dr. relocates to Florida. When it resumes its meetings, it will wrap-up the work on Soviet relocatable targets.
- The joint memo to the DCI requesting that the ACIS take the action from the off-site conference on the arms control aspect of the mobile missile problem was sent to for his approval.

Narcotics Intelligence:

- George is contacting representatives from the Narcotics Working Group to review the intelligence collection effort against narcotics. The NIO/Narcotics has passed along your 19 August memorandum to the A/NIO/Narcotics, who fully supports the CIPC responsibility for such a review.

Miscellaneous

- has been looking into the extent and nature of the Community's coverage of nuclear testing. He is focusing on three substantive areas: the development and characteristics of Soviet weapon systems, non-Soviet events and nuclear proliferation, and the monitoring of current and potential treaties. Tony has held discussions with a number of intelligence officers including the NIO for Strategic Programs, INR's directors of Strategic Analysis and Political-Military Analysis, and the current and a past chairman of the Joint Atomic Energy Intelligence Committee.
